Course Description

This course surveys the doctrines of inspiration, God, angels, man, and sin.

Reflection Project

Each student will participate in a final project. A concluding oral review covering the main areas of concentration in the course is my preferred method. For this, you will choose a partner and each will interact with pre-assigned questions regarding theological matters in a one-time, personal conversation. For those unable to meet with someone, a 2-3 page paper interacting with the course content will serve to complete the course.

Course Materials

- Bible, EquipU notebook, Writing utensil

Optional Materials

A Theology for the Church: Revised Edition, Daniel L. Akin, editor, B&H Publishing Group.

The Moody Handbook of Theology, Revised and Expanded, Moody Publishers
